

JOSE NATANAHEL FERNANDEZ

BACKEND DEVELOPER (PYTHON)

PROFESSIONAL PROFILE

Desarrollador Backend y estudiante avanzado de Ingeniería Informática. Cuento con experiencia sólida en algoritmos, estructuras de datos y automatización mediante Python (lenguaje en el cual soy docente), combinada con experiencia práctica liderando la arquitectura transaccional de productos SaaS en Node.js

PROFESSIONAL EXPERIENCE

Backend Developer & Automation Specialist

January 2024 - Present

SAAS ARCHITECTURE AND DEVELOPMENT (TUCLICK)

- Leadership in backend development for a B2B platform. Building APIs, designing relational databases (PostgreSQL) and deploying to the cloud using the Node.js ecosystem.

AUTOMATION AND AI AGENTS

- Development of conversational bots for the automated management of sports bookings and customer service.

FRONTEND DEVELOPER | API INTEGRATION (ACADEMIC PROJECT)

- Interactive interface development using React.
- Seamless integration of the frontend with backend REST API services built in Python (FastAPI) and PostgreSQL (Supabase), ensuring proper data consumption and endpoints.

FRONTEND DEVELOPER | HORIZONS PROJECT (CENOA FOUNDATION)

- User interface development using Angular in a collaborative work environment.
- Consumption and integration of API services for a job board platform with an accessibility focus.

PROFESSOR OF LOGIC AND PYTHON PROGRAMMING

IIITA (Institute of Innovation and Applied Technology)

February 2024 - Present

PROFESSOR PYTHON I

- Teaching programming classes in pure Python, covering data structures, algorithms, and best coding practices.
- Developing students' analytical skills and ability to solve complex technical problems, strengthening the fundamental algorithmic logic for backend development.

TECHNICAL SKILLS

LANGUAGES

Python JavaScript C#

FRAMEWORKS

Angular React

FastAPI

OTHERS

Supabase Git

Script Automation

Agile Methodologies (Scrum)

EDUCATION AND TECHNICAL ACHIEVEMENTS

- Computer Engineering Catholic University of Salta (UCASAL) - 4th year in progress.
- 2017-2023 - Computer Technician - Republic of India.
- Competitive achievement: 2nd Place National in WRO (World Robot Olympiad) - Application of mathematical logic and engineering under pressure.

LANGUAGES

- English: B1 technical level
- Native Spanish
